Another term has come to an end and we congratulate every child for the great work they have done over the past 11 weeks. We thank every family and parent for their valued contributions to all of the fantastic events we had this term. It is sometimes easy to forget the great fun we had at the Community Market and children’s disco as well as our camp at Angelsea, Prep / one tea and interschool sport.

We hope every family enjoys the two week break and that all are safe and return ready for the new term.

Family Maths night

All families are invited to our Family Maths night to be held at the school on Thursday August 1st at 6.30pm. On this night we will involve all families in great maths activities with the children and give some useful hints for helping your children with maths at home.

A more detailed flier will come home with the first newsletter next term. Please put this important date in your diary for next term.

Parent Teacher interviews

Thank you to all who made the time to come along to this important night at school to continue to be a part of the learning of your children. We hope you found the evening worthwhile.

Your interest and ongoing contact with the school is certainly important for your children.

Working Bees over the holidays....

Please feel free to drop in, if you can, and help at the working bee on the middle weekend of the holidays. All helpers welcome. Details have been in the last two newsletters. Copies of the newsletters are on the school web site if you need them.
Parent and Community Conversation: JULY 26th

You may remember that last year Michele and Marie participated in a study tour to Santa Fe, New Mexico with the Catholic Education Office. Whilst they were over there they visited many schools. Some representatives from New Mexico will be visiting us next term.

You are invited to meet our special guests from Ramirez Thomas Elementary School in New Mexico, USA, next term.

Robin Noble (Principal) and Amparo (Parent Advocate) are visiting our school for the day and working with staff from St Theresa’s and other Catholic schools in the morning.

In the afternoon we invite parents and families to join us with Robin and Amparo in conversation. Robin has a great reputation for her reform work in schools incorporating parents and the community as a key ingredient in this process.

Feel free to join us to listen or contribute as we talk about our own experiences and learning as well as those from New Mexico.

Below is some information about the school in New Mexico for your interest.

Weblink to an article about the school-

Want to join us for an interesting conversation??????

Where: St Theresa’s
When: July 26th
From: 1.30 – 3.00Pm
