

LEARNING & TEACHING STATEMENT

St Theresa's is a learning community that aspires to provide a differentiated and purposeful environment.

We aim to challenge, motivate and support all learners to contribute meaningfully to our ever changing world and to meet the high expectations we believe they can achieve.

Our learning environment is challenging, engaging and purposeful and values partnerships between school family and community.

As reflective practitioners, teachers assess and plan scaffolded learning experiences using contemporary tools.

As reflective learners, students are empowered to be lifelong learners.

The child is at the centre of everything we do.
